/// KUNDENTAG 2606

WHAT'S NEW IN TC ACTIVE WORKSPACE

Marc Wolff, Muhammer Kilic / / / 13:00 – 13:40 Uhr

DR. WALLNER ENGINEERING

Agenda

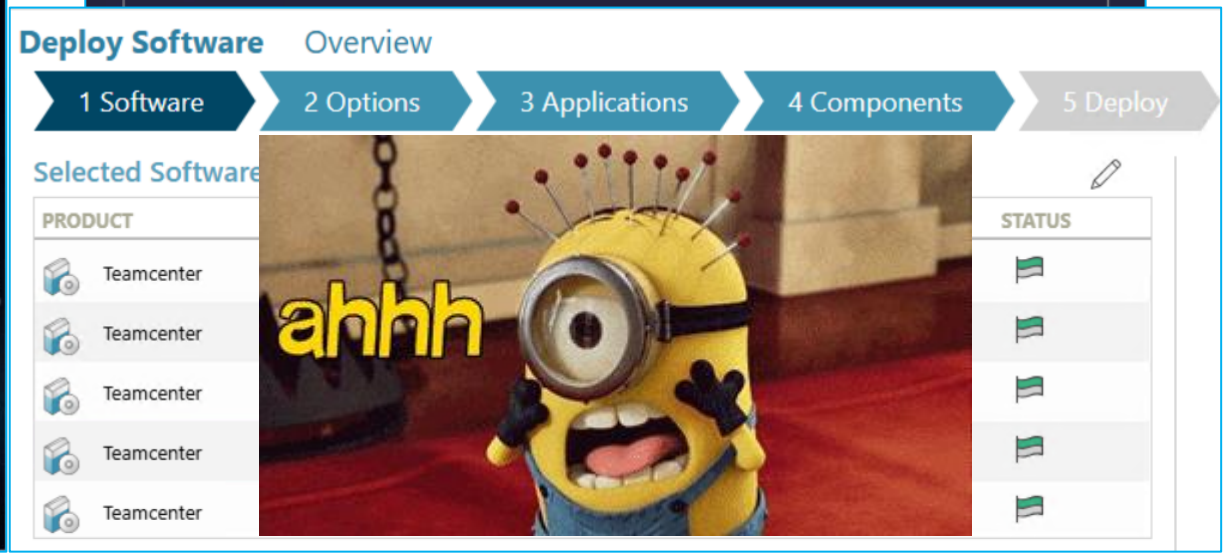

- What’s New
  - User Interface
  - Administration

Transformation und Schmerz

User Interface

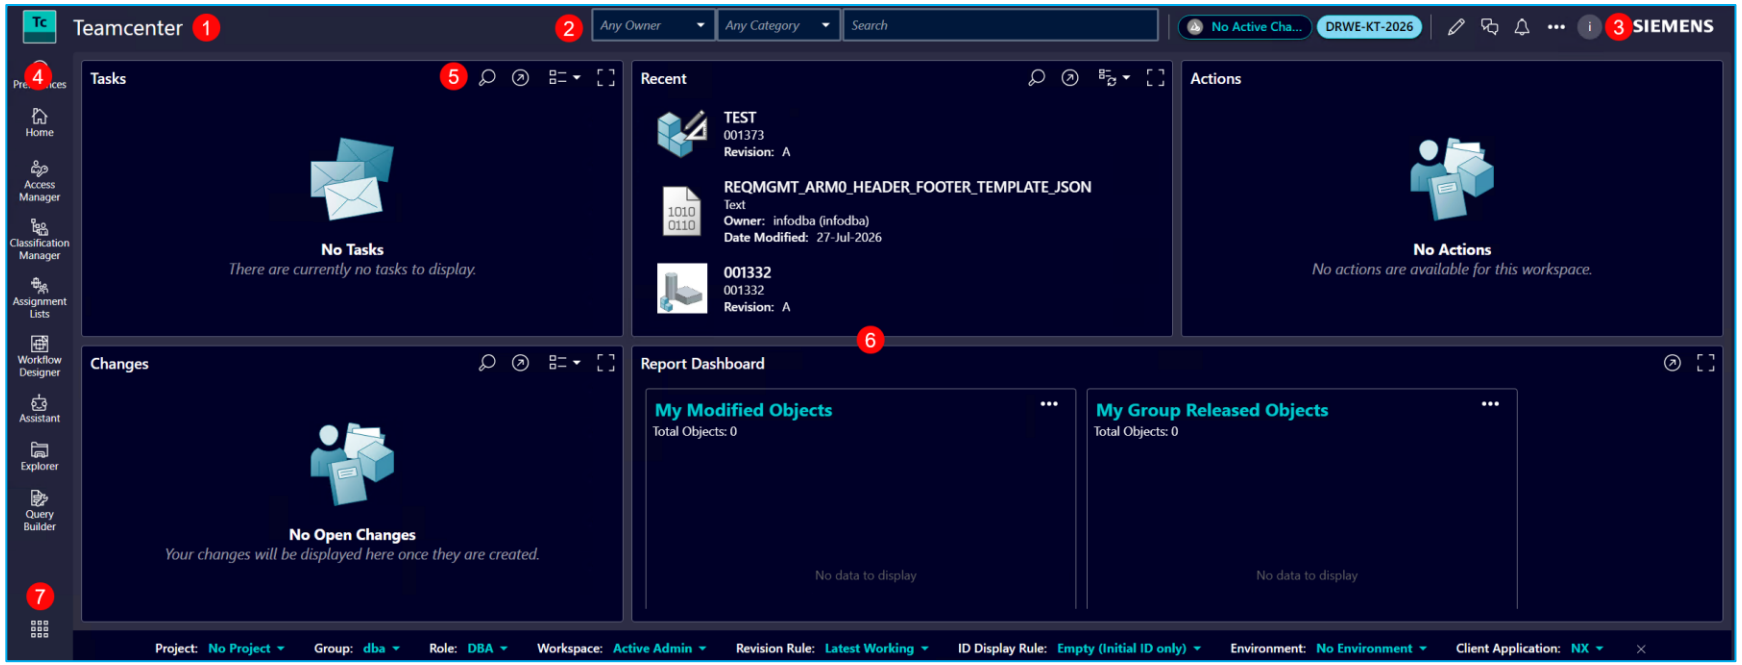

- Neues Layout
  - Dashboard
  - Launcher
  - Themes
  - Primary Work Modes
- Attribute Level Security
- ...

Persönliches Dashboard und neue Themen

Tc2512

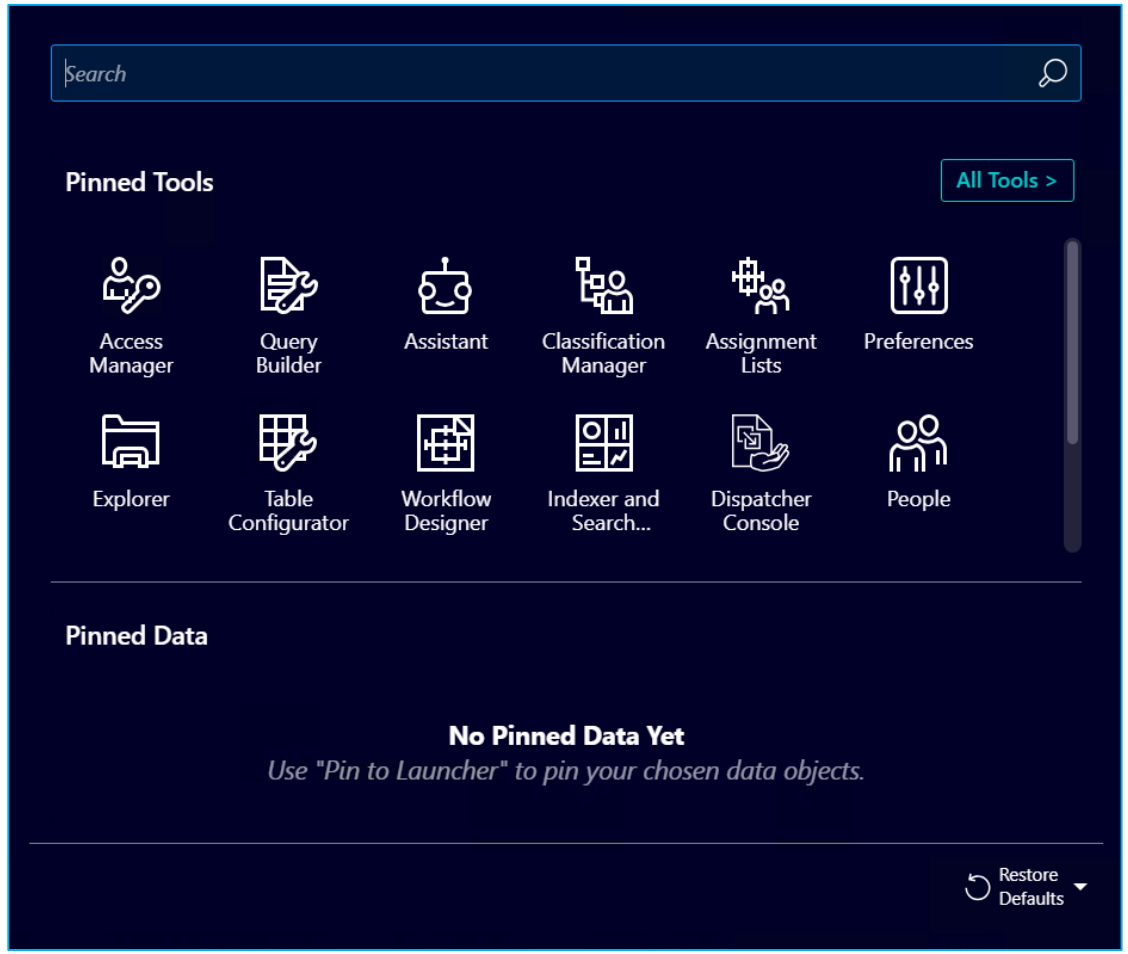

Quelle: https://docs.sw.siemens.com/en-US/doc/282219420/PL20250520748650994.UserAssistance/xid482593

1. Global Header
2. Global Search
3. Session Controls
4. Navigation Bar
5. Dashboard Section Options
6. Dashboard Sections
7. Launcher

Launcher

Quelle: https://docs.sw.siemens.com/en-US/doc/282219420/PL20250520748650994.UserAssistance/sgx1739474736791

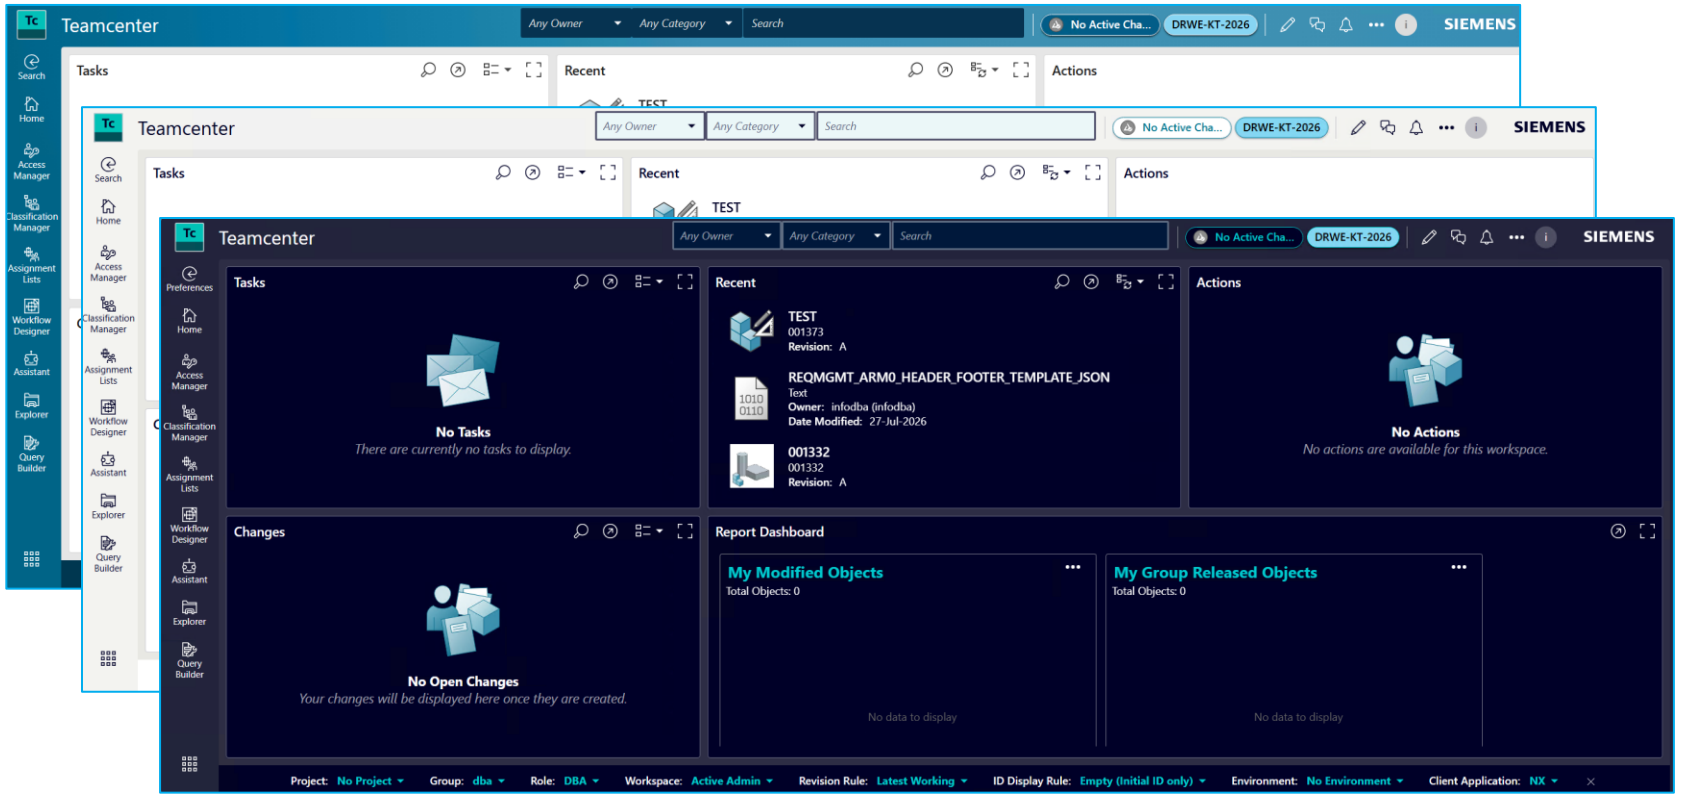

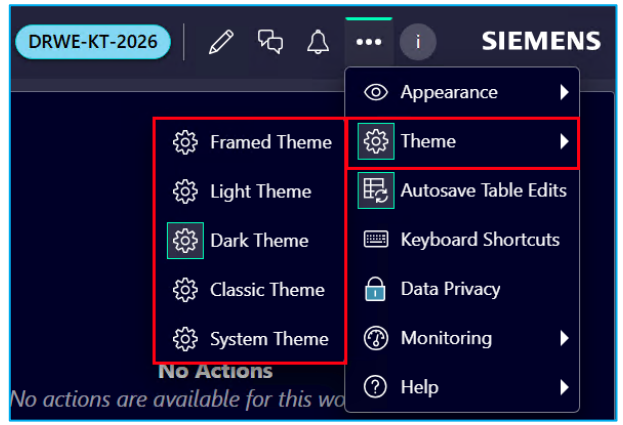

- Konfigurierbarer Dialog für die Verwaltung der Anwendungen/Werkzeuge/Daten
- Übernahme in die Global Navigation Bar
- Zurücksetzen auf Standard

Themes

Tc2512

Quelle: https://docs.sw.siemens.com/de-DE/doc/282219420/PL20251212545240207.whats_new/nvw4086017399401

Primary Work Modes

Tc2512

Quelle: https://docs.sw.siemens.com/de-DE/doc/282219420/PL20251212545499388.zzu7148187641374/qaa5592580926187

Neue visuelle Steuerelemente zum Wechseln zwischen Objektdetails, der Inhaltsstruktur oder der zugehörigen Objekte

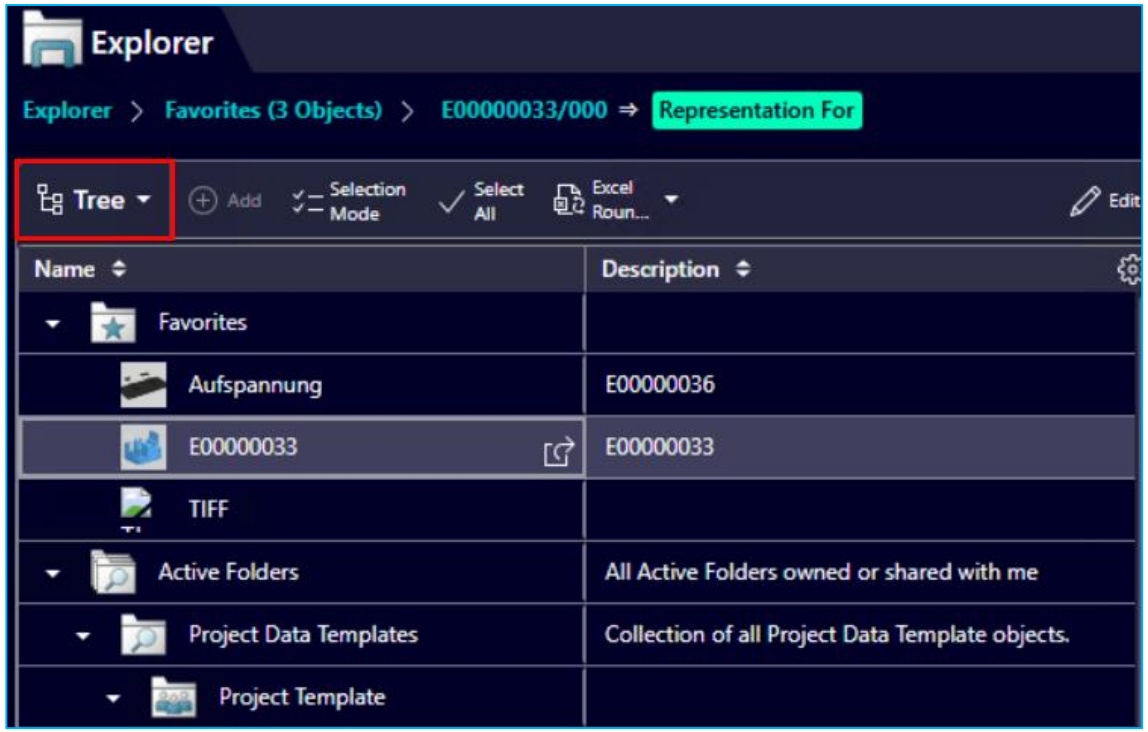

Explorer /// Relation Tree

Tc2606

Quelle: https://docs.sw.siemens.com/de-DE/doc/282219420/PL20251212545499388.zzu7148187641374/ufr1403803032898

Erweiterung Explorer Darstellung

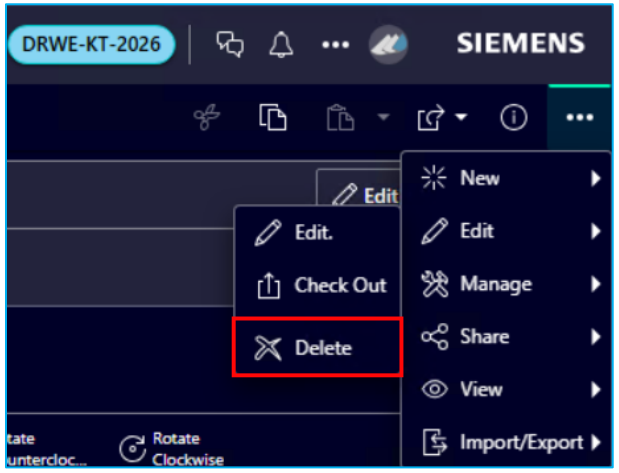

→ Baumstrukturansicht

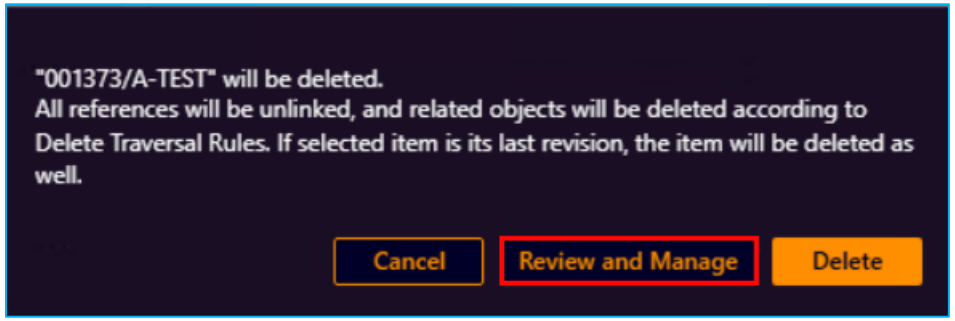

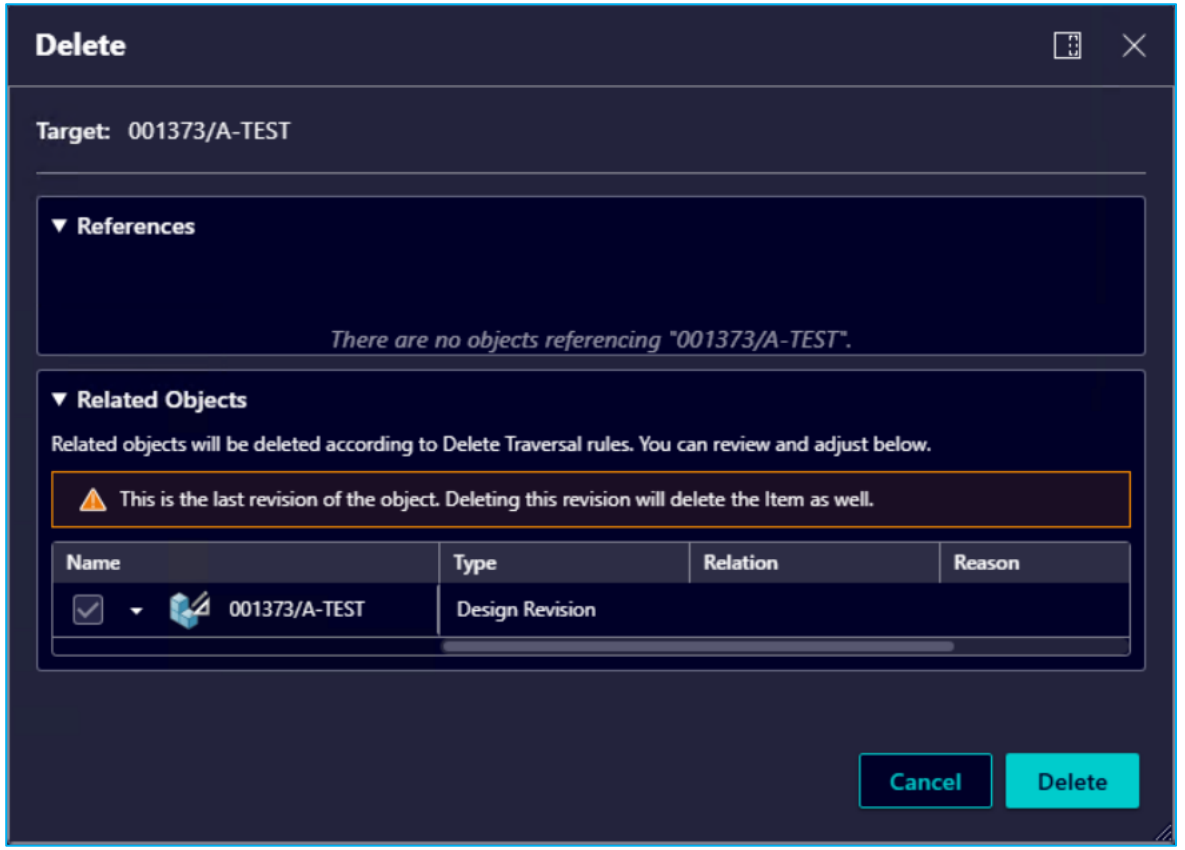

Objekte Löschen

Tc2606

Quelle: https://docs.sw.siemens.com/en-US/doc/282219420/PL20251212545240207.whats_new/qgw7256509232376

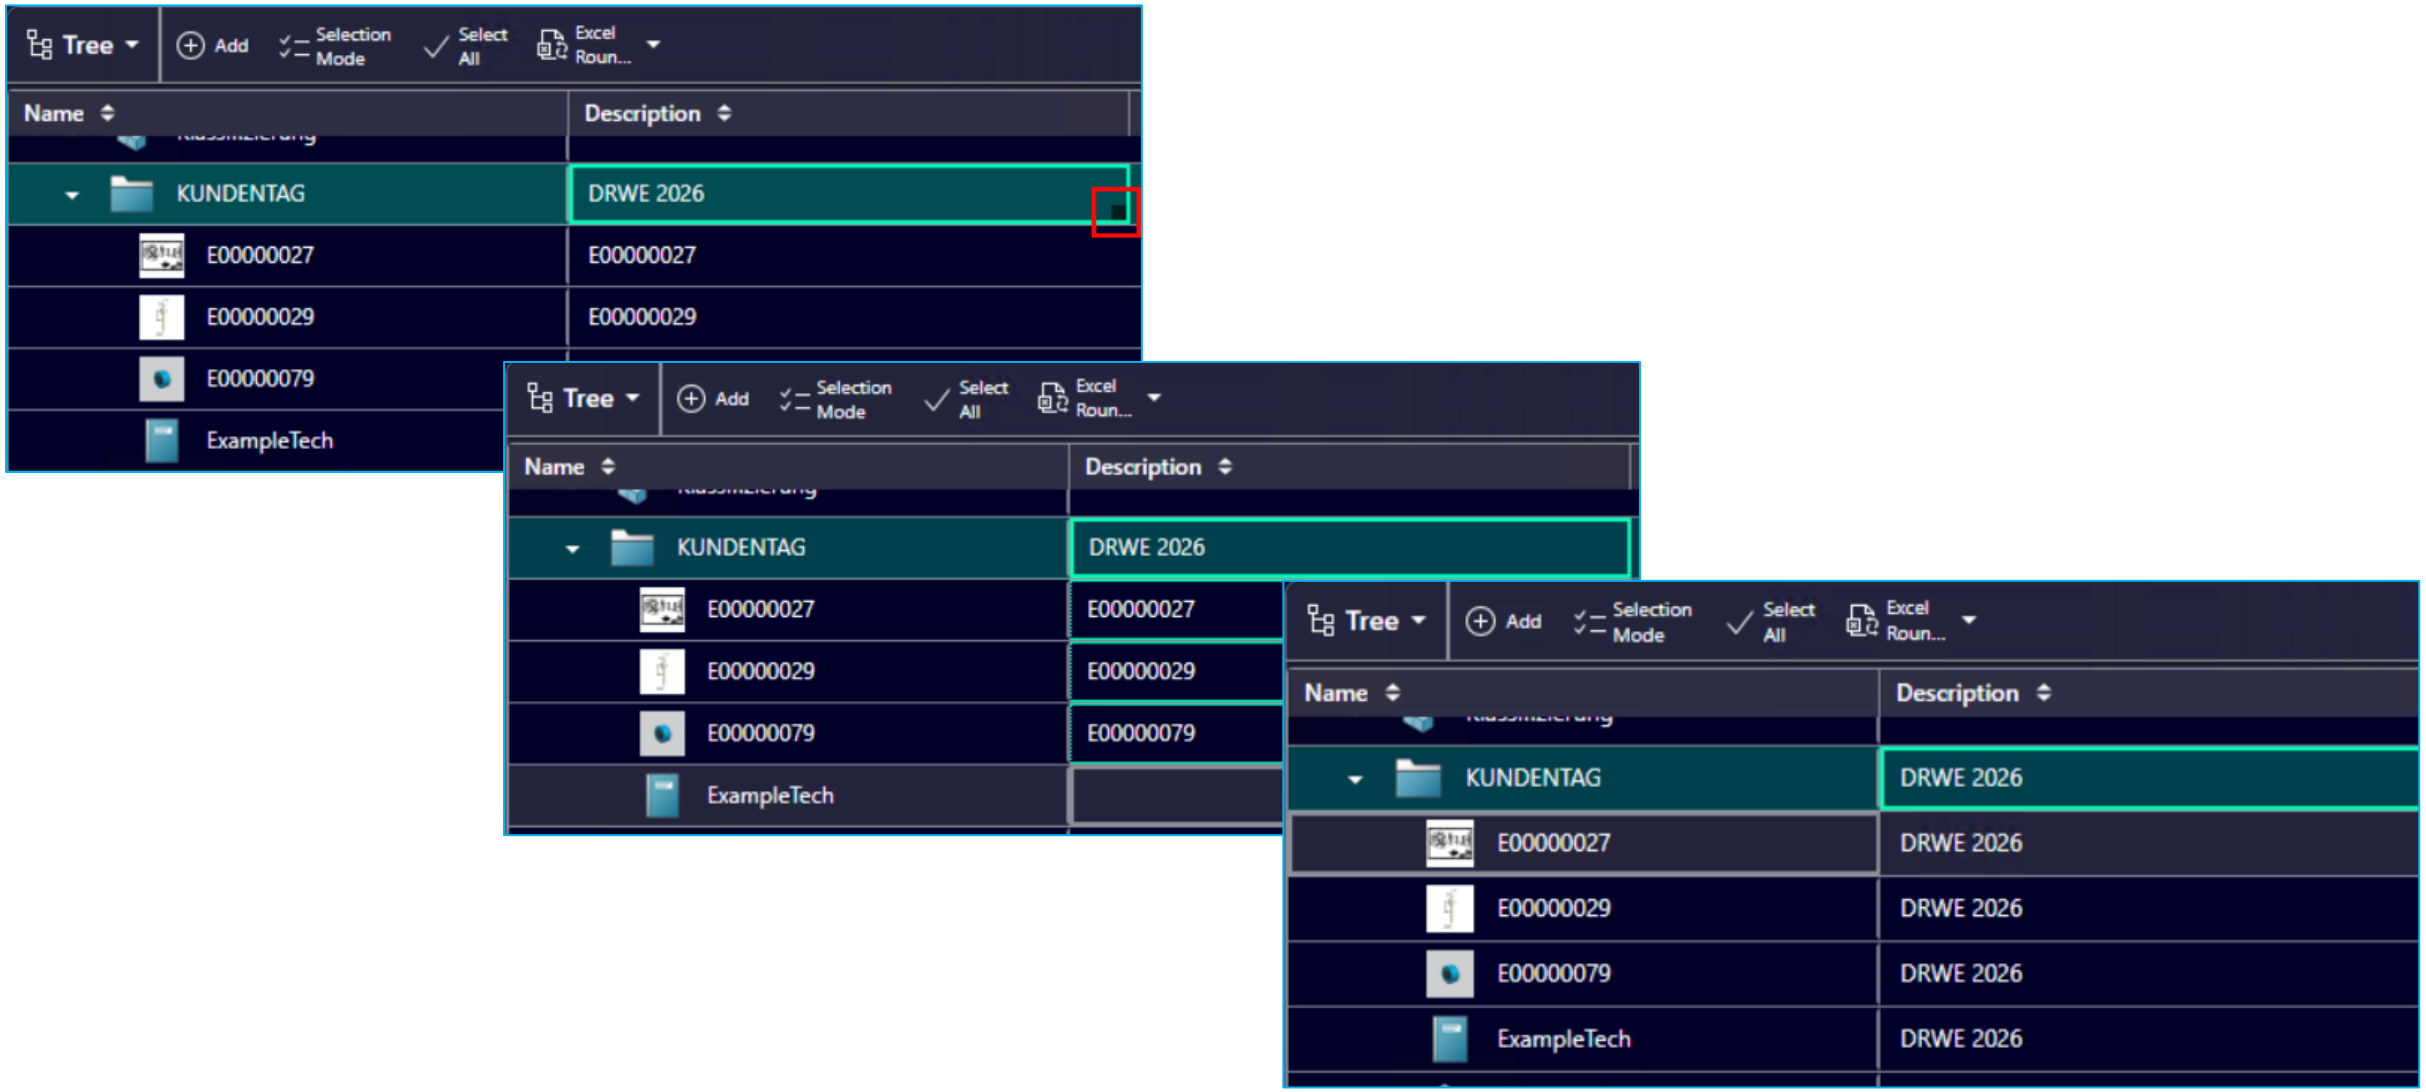

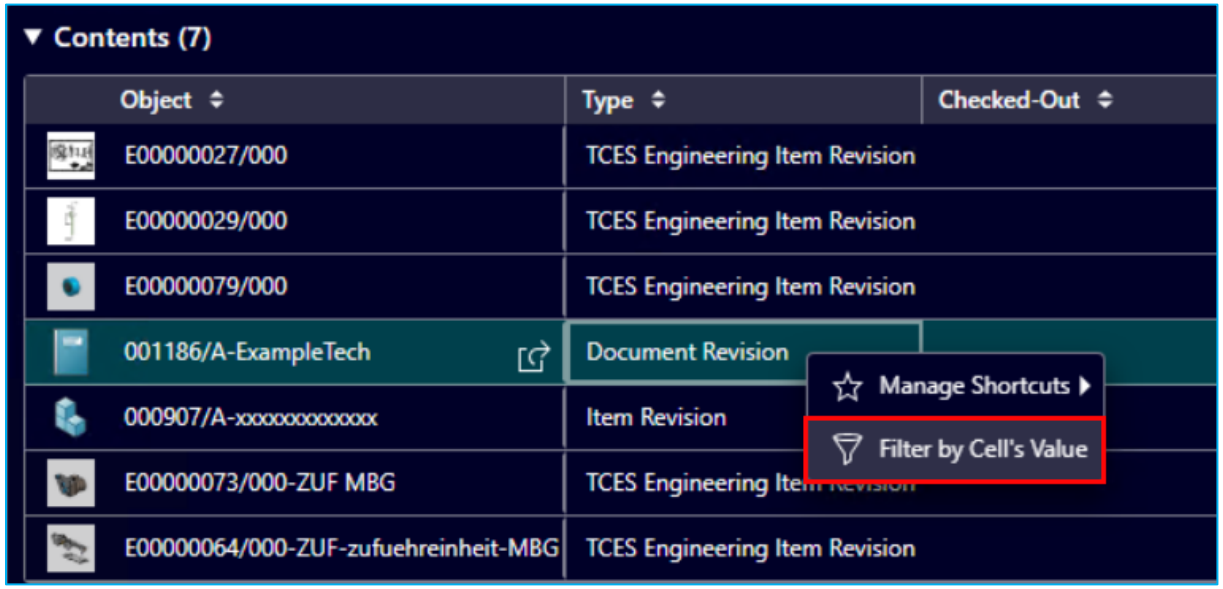

Tabellen – Copy/Paste

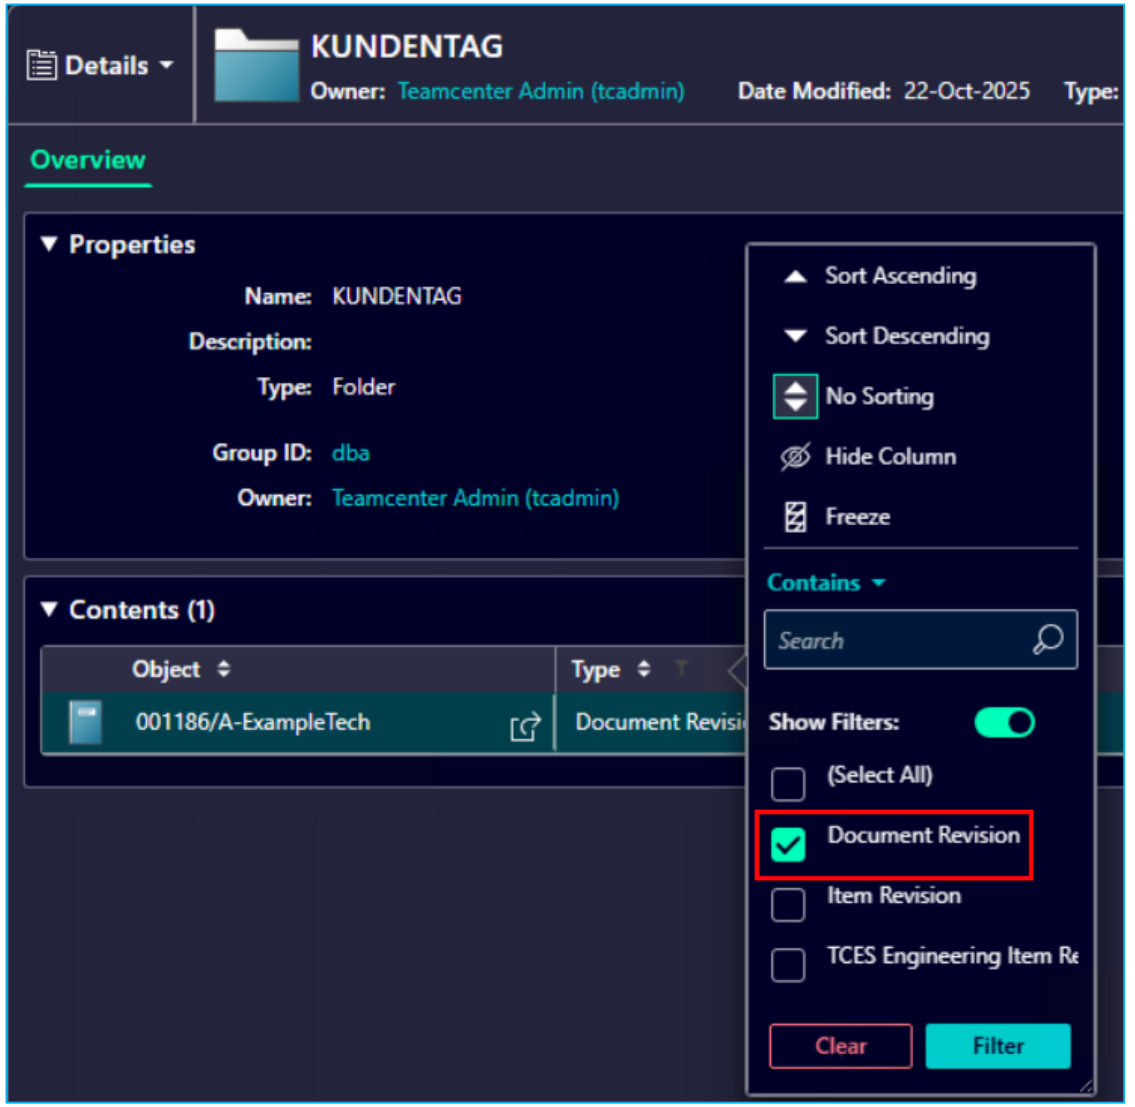

Tc2606

Tabellen – Filterfunktion

Tc2606

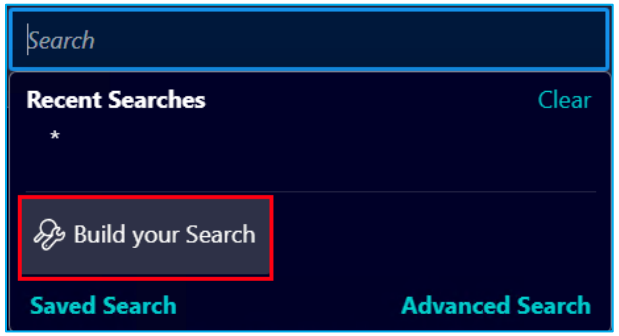

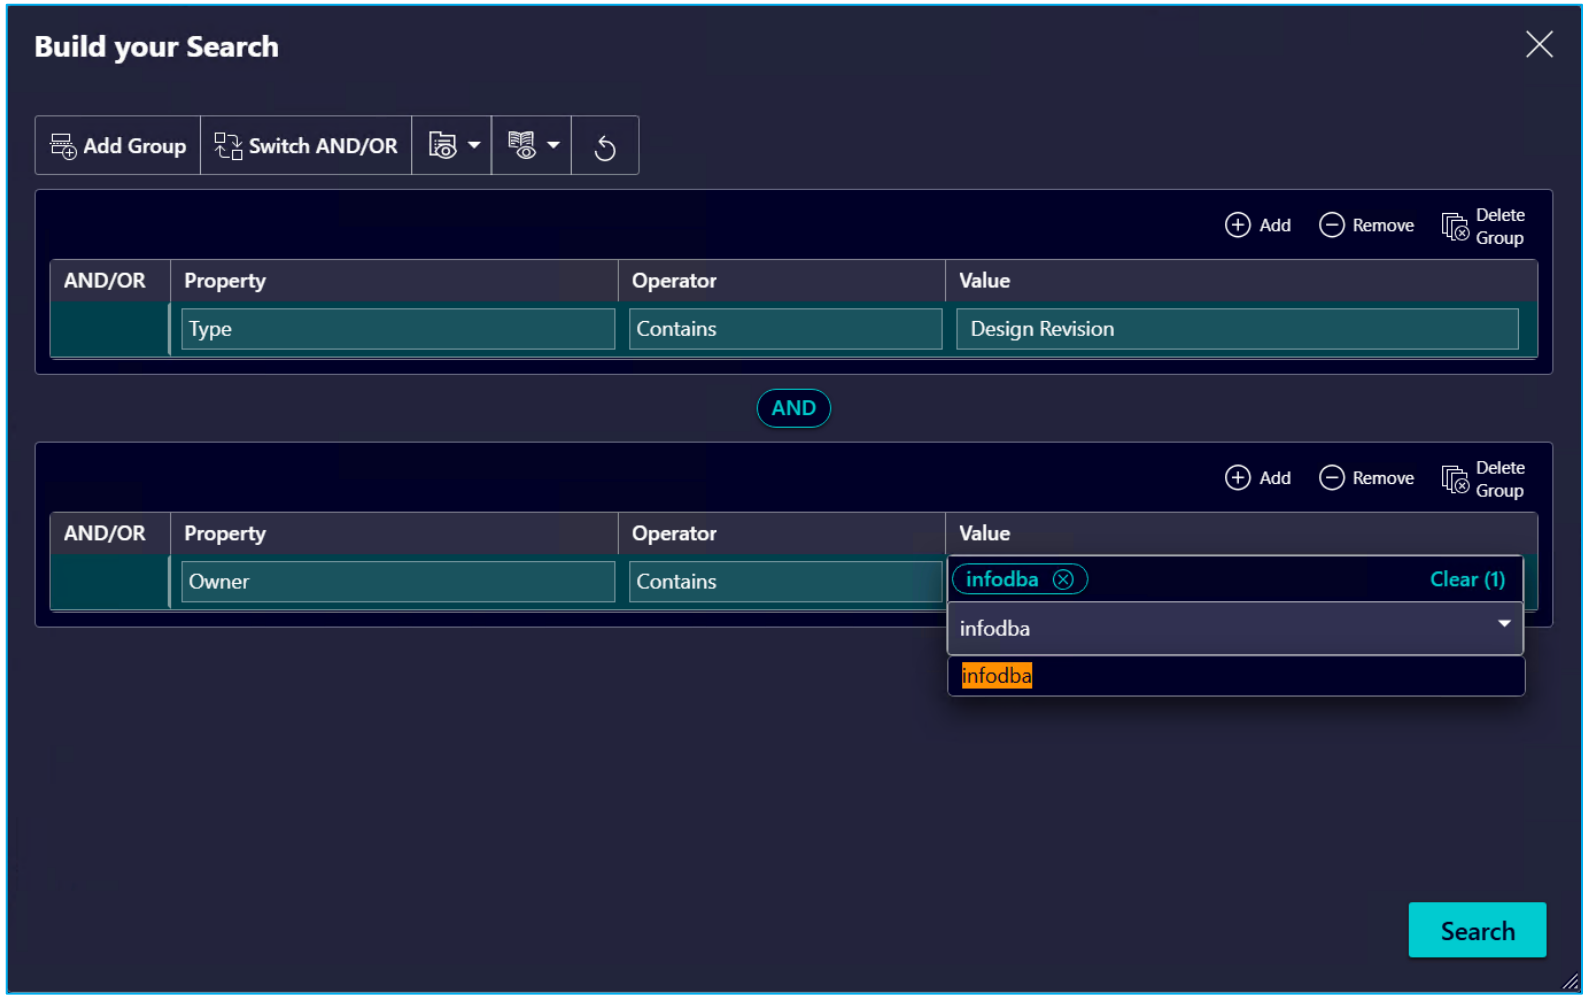

Eigene Suche erstellen

Tc2606

Quelle: https://docs.sw.siemens.com/en-US/doc/282219420/PL20251212545240207.UserAssistance/kfa6191739494560

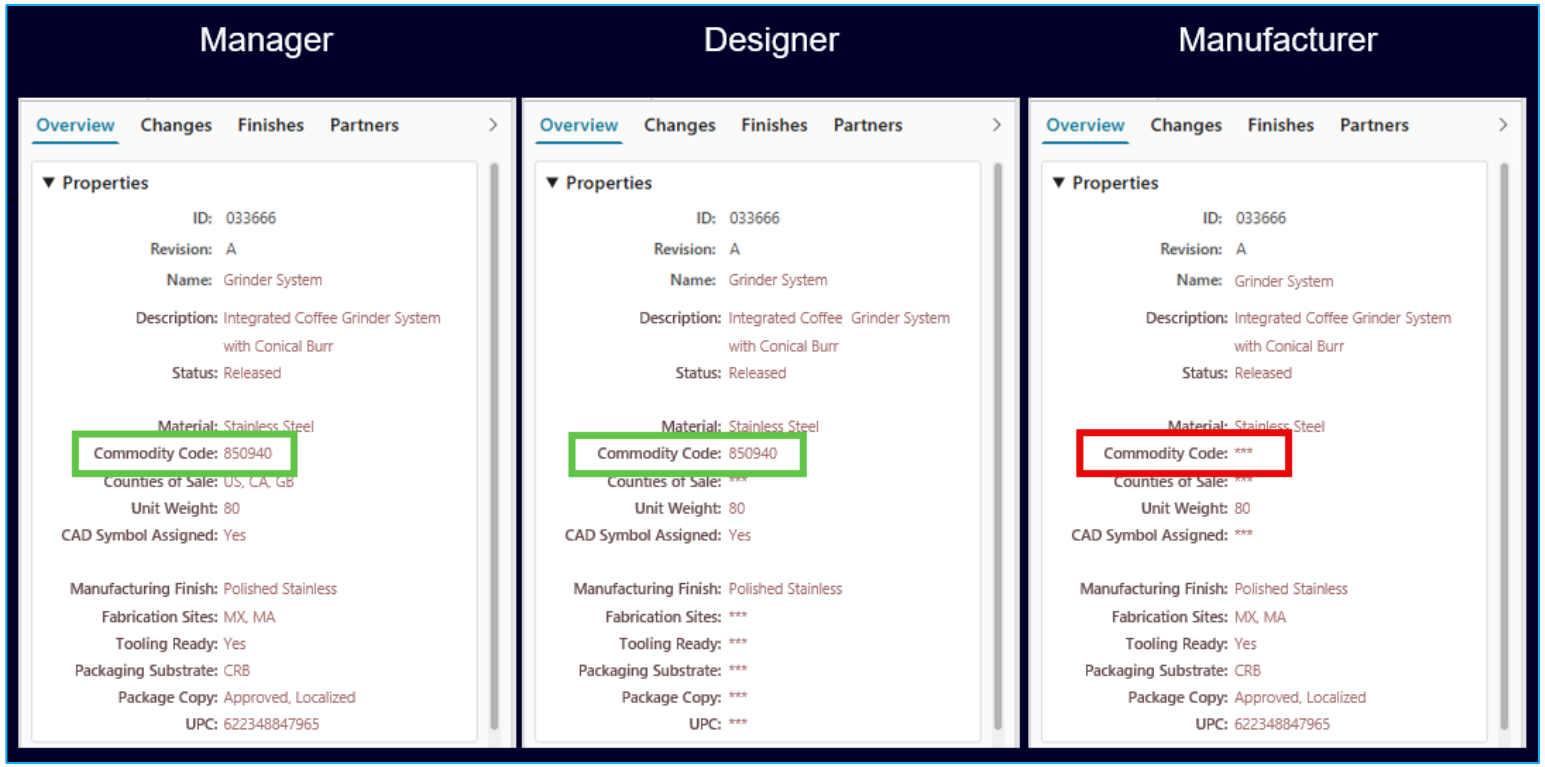

Attribute Level Security (ALS)

Tc2512

Quelle: https://docs.sw.siemens.com/de-DE/doc/282219420/PL20251212545499388.zzu7148187641374/tkf1659344181864

Steuerung der Anzeige für ALS Properties:

- Bisher → Name der Property sichtbar, Wert als Asterisk markiert
- Neu → Über die Preference: *"AWC_Suppress_Display_ALS_Properties"* lässt sich der Eintrag komplett unterdrücken

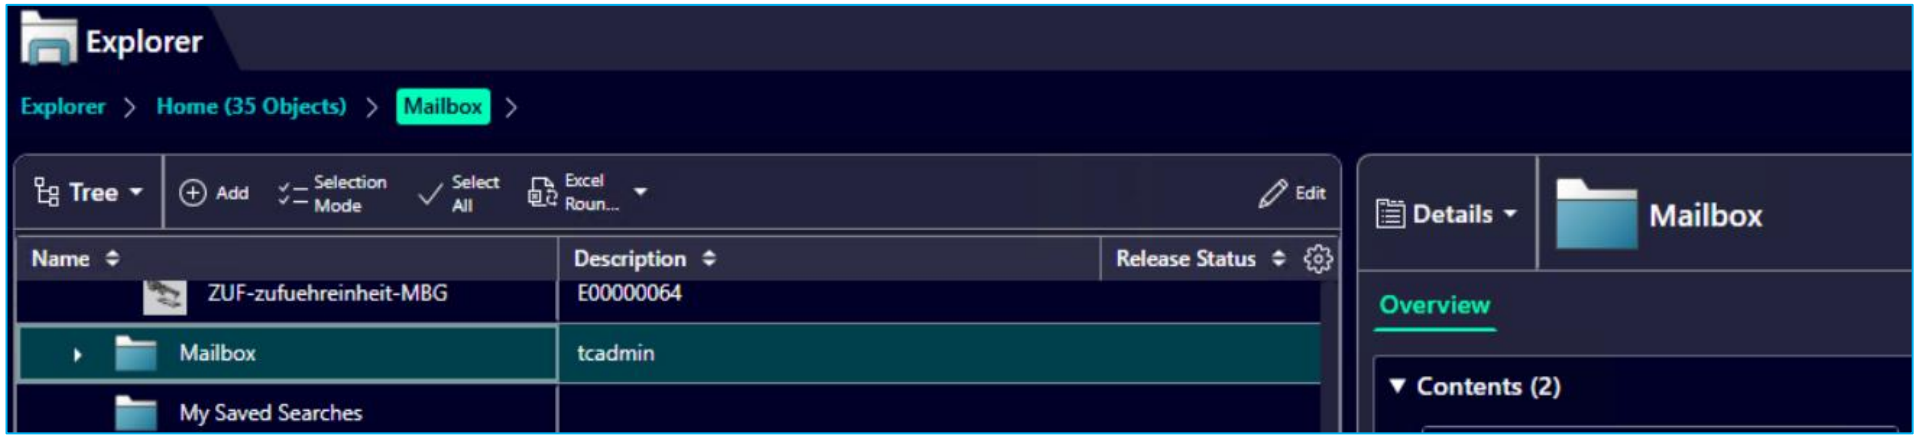

Administration

- XRT Editor
- Dispatcher Console
- ADA Licenses
- Webtier
- TcSS
- TCCS
- Tc Mgmt Console
- TcVis Rendering

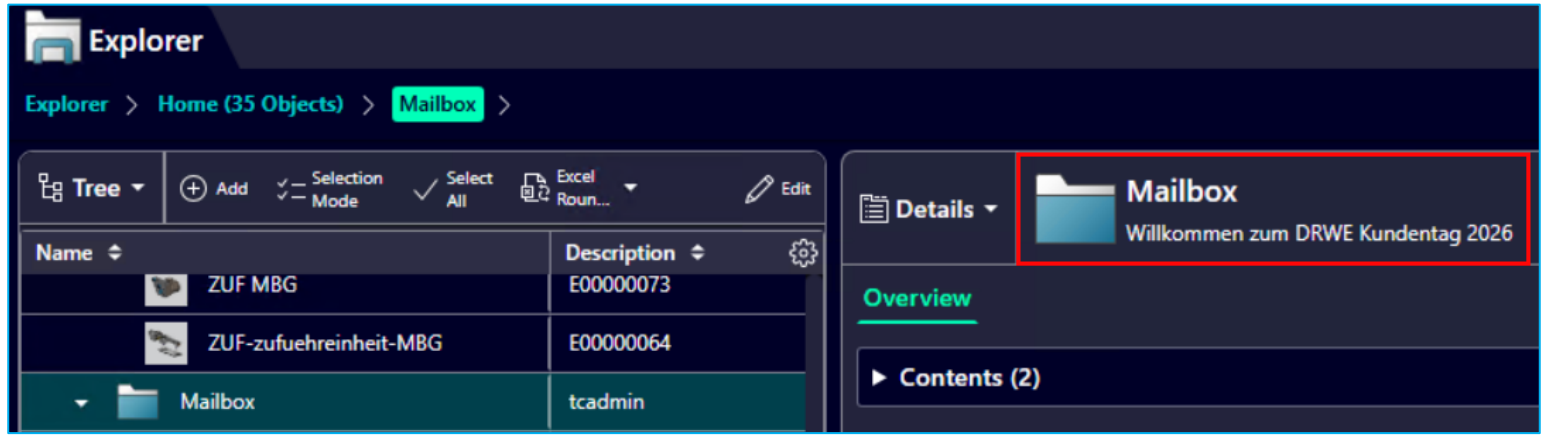

Administration /// XRT Editor

Tc2606

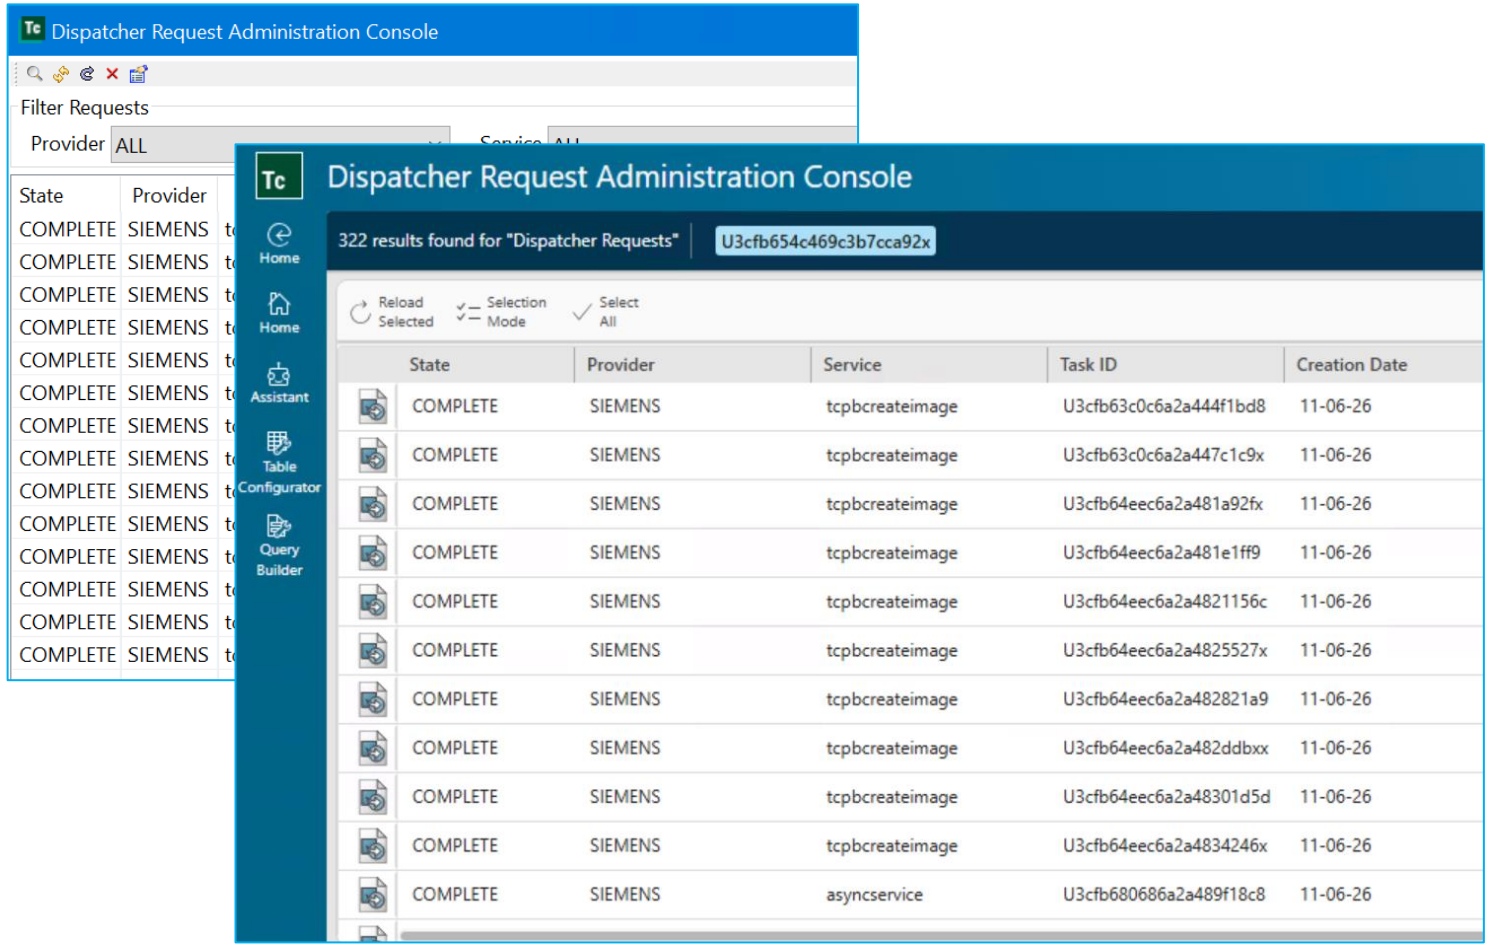

```
<!-- Default style sheet for displaying Fnd0MailFolder (Mail Folder) summary -->
<rendering xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xsi:noNamespaceSchemaLocation
    <header>
        <image source="type"/>
        <label text="Willkommen zum DRWE Kundentag 2026" />
```

Administration /// Dispatcher Console

Tc2606

Quelle: https://docs.sw.siemens.com/de-DE/doc/282219420/PL20251212545240207.plm00565/xdw5237150193279

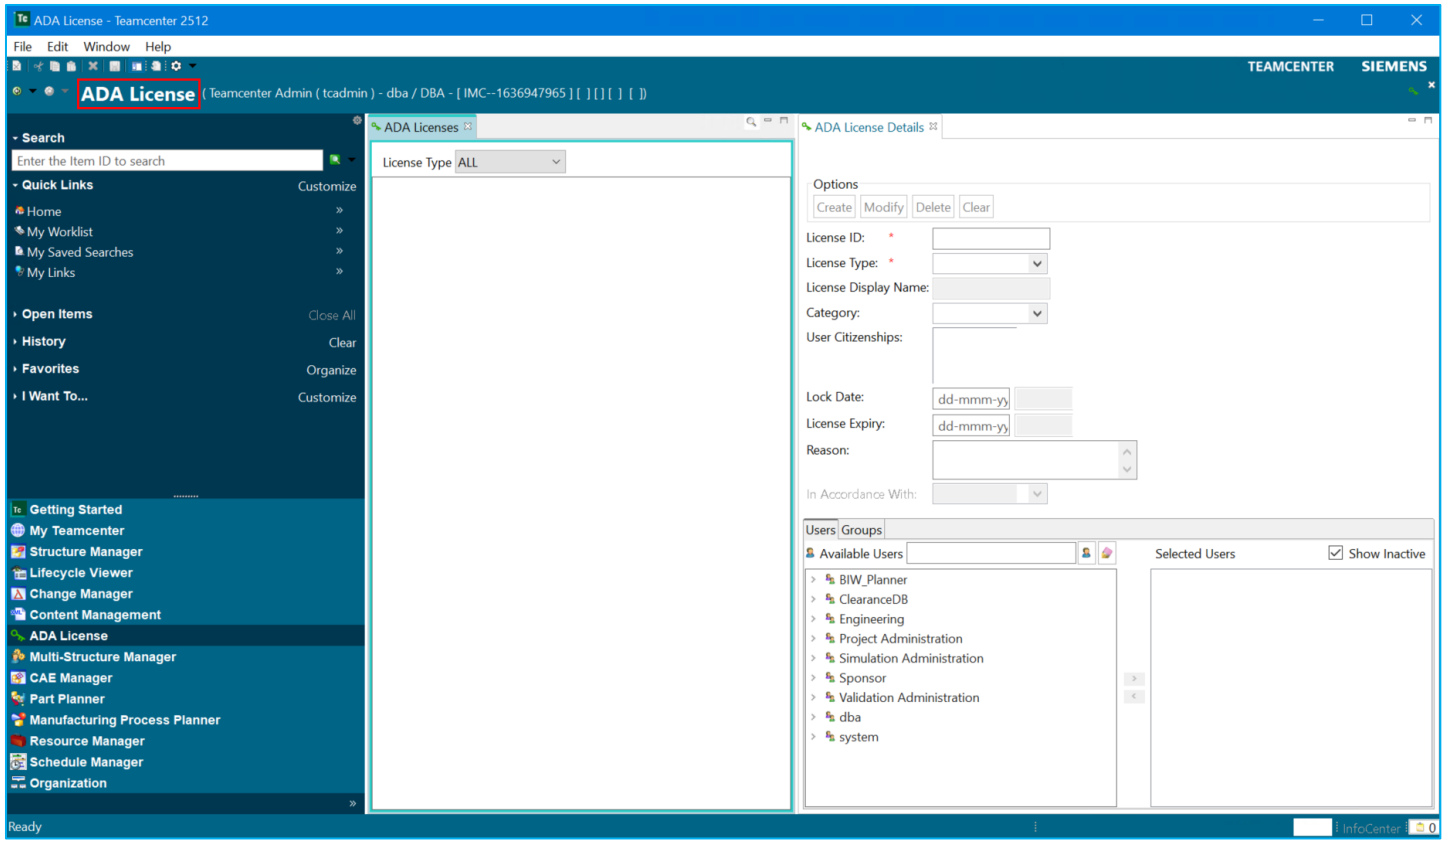

Dispatcher Console in Active Workspace verfügbar

- Monitoring der Requests wie im RAC
  - Refresh
  - Delete
  - Resubmit

Administration /// ADA Licenses

Tc2606

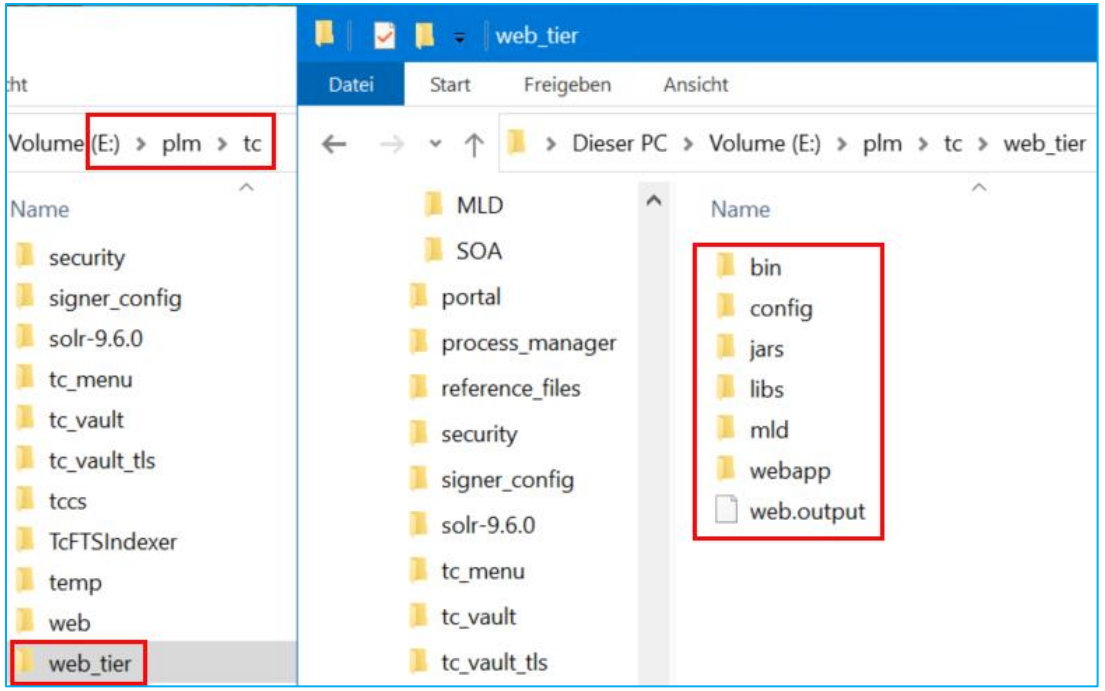

Quelle: https://docs.sw.siemens.com/de-DE/doc/282219420/PL20251212545499388.zzu7148187641374/bom2432216104431

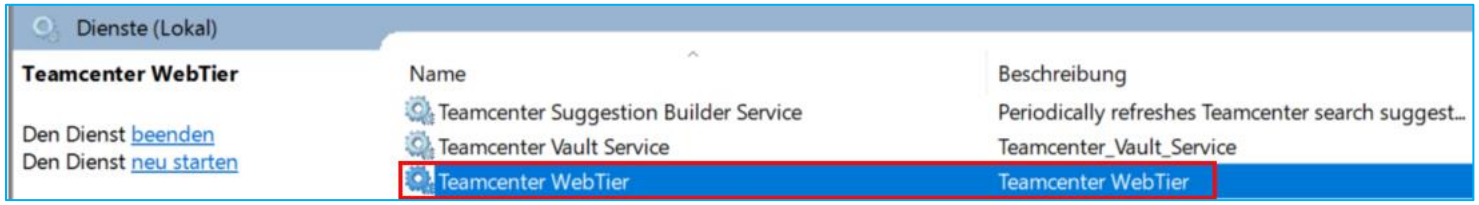

- ADA License Modul in Active Workspace verfügbar
- Active Admin → Möglichkeit ADA Licenses einzusehen, Zuweisen/Entfernen von Anwendern
- <u>Voraussetzungen:</u> License Management Active Workspace

Aktuell keine Information, ob eigentliche Definition/Konfiguration der ADA License auch im Active Workspace gegeben

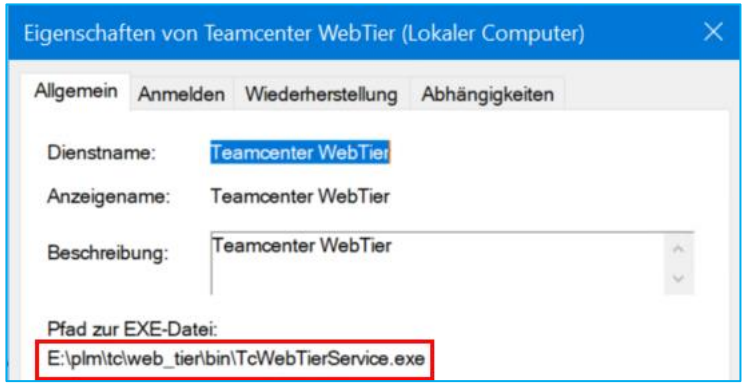

Administration /// Webtier

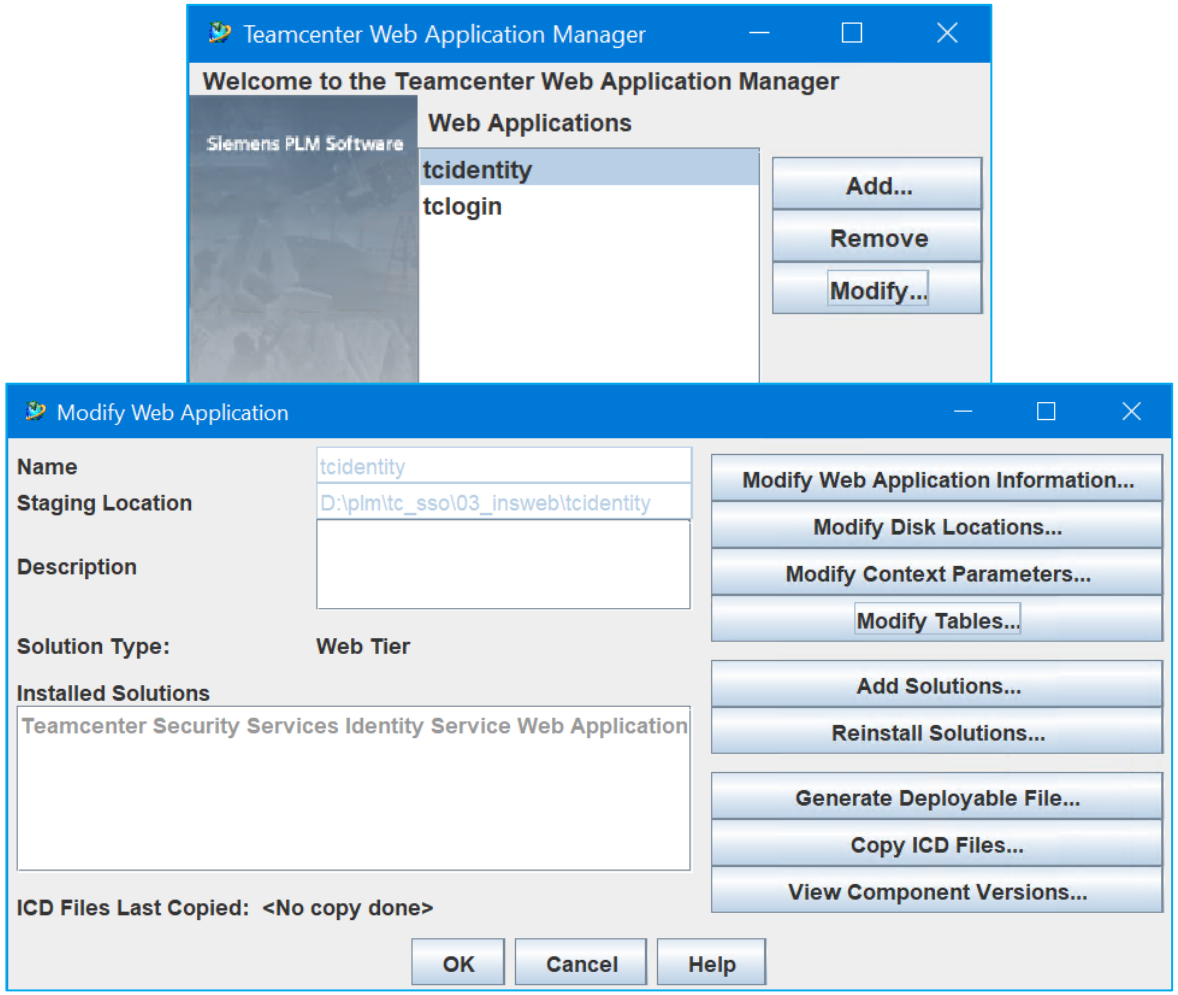

Teamcenter Webtier als eigener Service

- Die Abhängigkeit zu 3rdPartyTools - z.B.: JBoss, IIS - ist aufgehoben

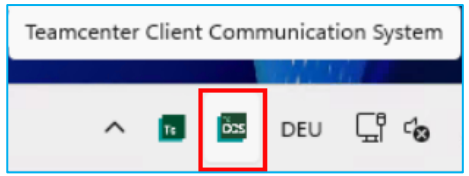

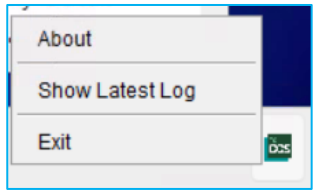

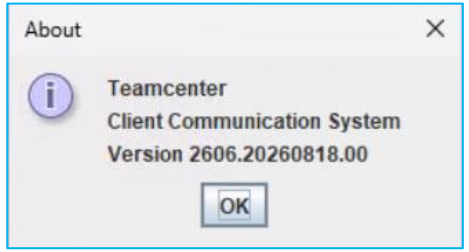

Ablösung Teamcenter Security Services (insweb)

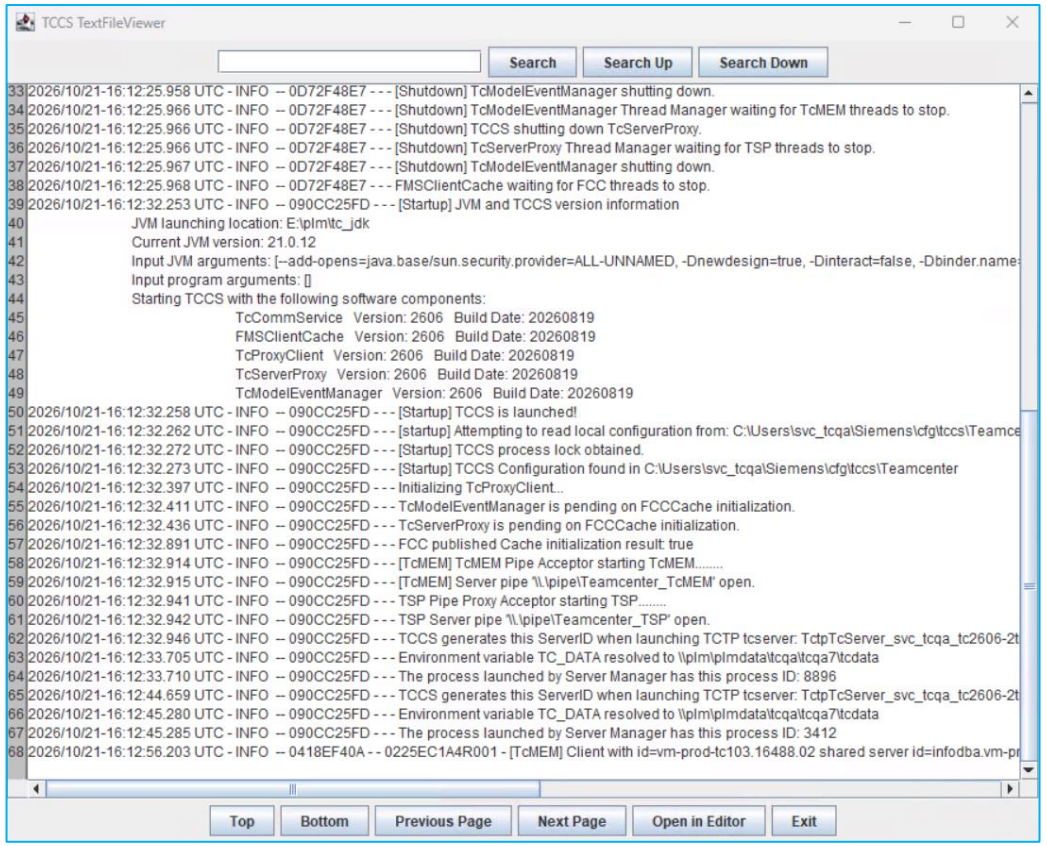

- Eigene Services für Login-/Identity-Service
- Die Abhängigkeit zu 3rdPartyTools – z.B.: bei SSO mit Apache Tomcat und Isapi-Redirect – ist aufgehoben

Administration /// TCCS

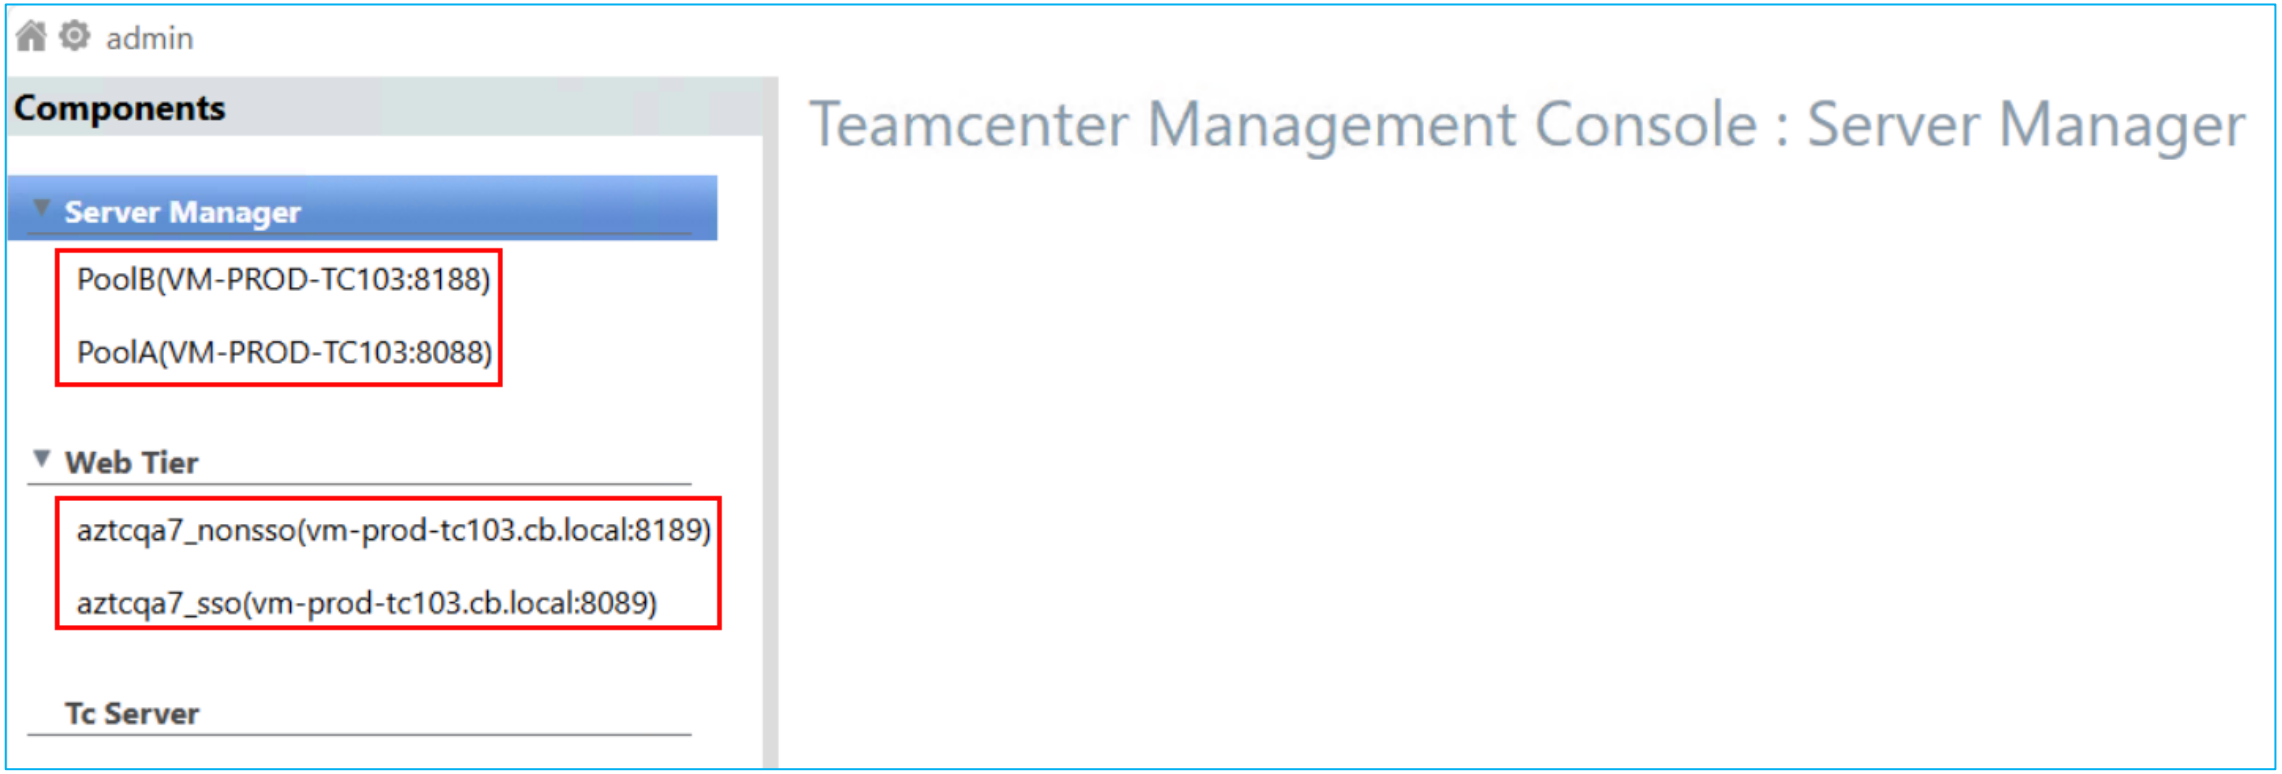

TCCS als eigenes Menu in der Taskleiste

- Zugriff auf das aktuelle Logfile
- Beenden TCCS Prozess

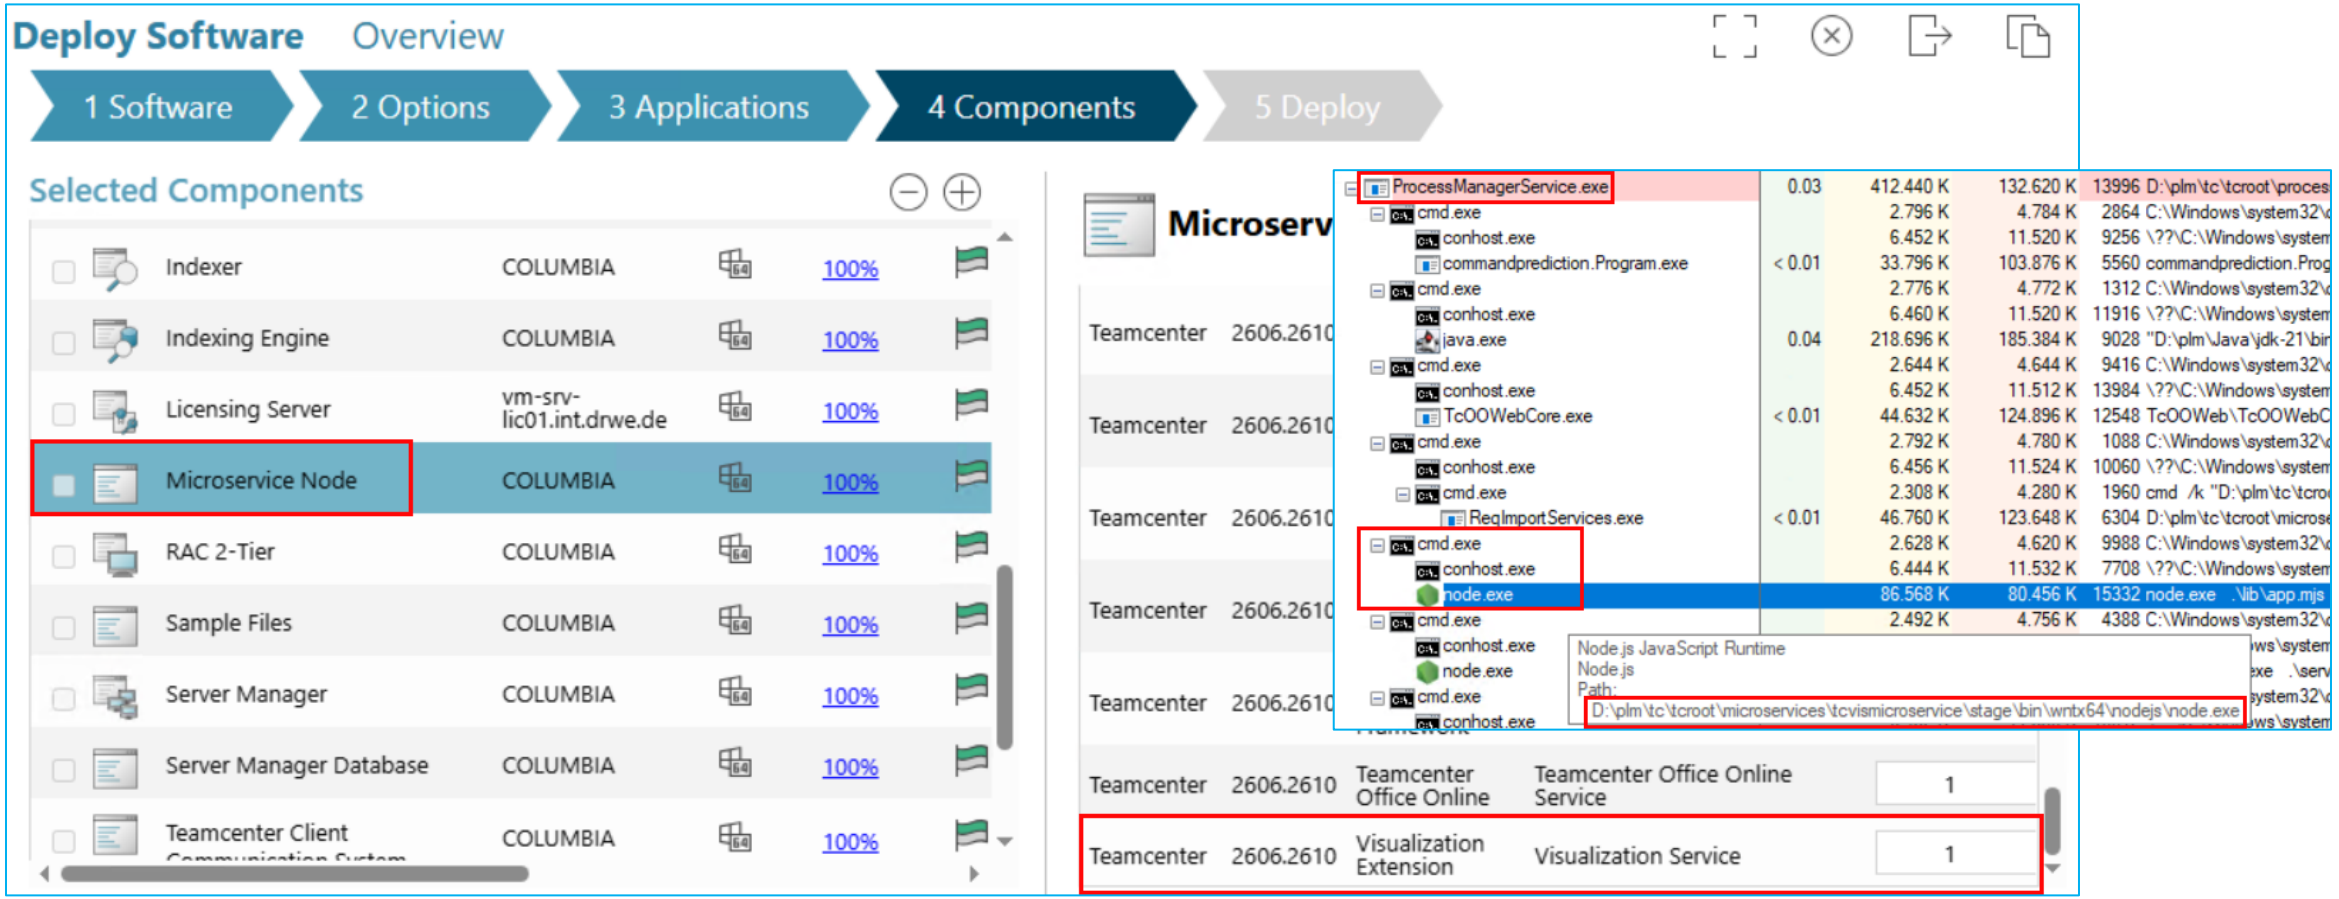

Administration /// Management Console

Tc2512

Administration /// Vis Rendering

Tc2512

E:\plminstall_local\DC\deployment_center\deployment_center>deployment_center.bat -install -inputFile=install_config_qa7.properties
2026-08-14T08:57:25.541519500Z main ERROR Unable to create file E:\plminstall_local\DC\deployment_center\deployment_center\/logs/deployment_center_debug_~0,4currentDateTime:~4,2currentDateTime:~6,2currentDateTime:~8,2currentDateTime:~10,2currentDateTime:~12,2.log
java.io.IOException: The filename, directory name, or volume label syntax is incorrect
    at java.base/java.io.WinNTFileSystem.createFileExclusively0(Native Method)
    at java.base/java.io.WinNTFileSystem.createFileExclusively(WinNTFileSystem.java:536)

Workaround

In Admin Shell "wmic" nachinstallieren.

DISM /Online /Add-Capability /CapabilityName:WMIC

```
for /F "usebackq tokens=1,2 delims==" %%i in (`wmic os get LocalDateTime /VALUE 2^>NUL`) do if '.%%i.'=='.LocalDateTime.'
set currentDateTime=%currentDateTime:~0,4%-%currentDateTime:~4,2%-%currentDateTime:~6,2%_%currentDateTime:~8,2%_%currentD
```

Das war noch nicht alles...
